Our Class Newsletter

4th Grade

Week of: January 16th-20th

Reminders

- Welcome to our second week of third nine weeks!
- FAST testing starts 1/23 for fourth grade!
- Please review and make sure your child has his or her agenda for school daily.

Math

Our benchmark for this week focuses on division and fractions. We are working on making sure each student comes ready to learn for class.
Students need to complete their 45 minutes or more of I-Ready and pass at least 3 lessons with a score of 75% or higher.

Reading

Our focus this week is determining the main idea of an informational text, context clues and how to determine the author's perspective. We are also understanding character development.

Science + Social Studies

Our focus this week is still understanding the Engineering Design Process. We will continue to work on activities involving how scientists create and use models.

Writing

Our students have been working on expository text.

Misc.

Thanks for all of the parents who are being vigilant and keeping your children home when they are sick. With flu season, there is a call to action to ensure we can remain as healthy as possible.
Thank you again for all that you do!
