Mr. Harrison's Rattlers Den!!

Week of January 2, 2018

Vocabulary Words:

Science

natural resource □
renewable resource □
nonrenewable resource □
energy □
water □ phosphate

Math

unlike denominator,
mixed number fractions greater than 1

Updates:

1/2 Return From Holiday Break

What Are We Working On?

5.NBT.2.7 Add, subtract, multiply, and divide decimals to hundredths, using concrete models or drawings and strategies based on place value, properties of operations, and/or the relationship between addition and subtraction; relate the strategy to a written method and explain the reasoning used. For example, create a story context for $4 \div (1/5)$, and use a visual fraction model to show the quotient. Use the relationship between multiplication and division to explain that $4 \div (1/5) = 20$ because $20 \times (1/5) = 4$

SC.4.E.6.3 Recognize that humans need resources found on Earth and that these are either renewable or nonrenewable. SC.4.E.6.6 Identify resources available in Florida (water, phosphate, oil, limestone, silicon, wind, and solar energy).

5th Grade

School Theme: Quest for Success!!

Reminders: Parents please sign all homework!!
