Science

Earth's Formations & the Water Cycle

Third grade is continuing their exploration of Earth science. This week will be finishing up Earth's formations and will be testing on Friday. A study guide will go home later in the week, but homework is always a good way to start reviewing concepts.

We will continue this week with water as a natural resource as well as the water cycle. We will then begin talking about how the water cycle influences our weather.

Report Cards

Report cards will be distributed Friday, February 3.

Parent Night

There will be a Parent Night held at Tiger Academy on February 2. We look forward to seeing you all there.

Class of
2025

Class of
2024

Tigers Today, Leaders Tomorrow!

Social Studies

Current Events

The next current event is due this Thursday, February 2, 2012.

This assignment will be the first one for the third term. This is a great way to start off with an A!

I am hoping that ALL students have an opportunity to pass in a current event on time, as these assignments count as 20% of the social studies grades. Early assignments are always welcome!

Volunteers needed

We are looking for homeroom parents and volunteers to help out during Wednesday morning's lacrosse practices. If you are interested in either please contact your child's homeroom teacher.

Monday	Tuesday	Wednesday	Thursday	Friday
30 Vision Screening	31	1 PE Day	2 Current event Family Night	3 3 rd grade science test
6	7	8 PE Day	9	10
