CLASS WORK

Math: Students are finishing up our first module on Multiplication and Division this week. We are transitioning into Module 2 with a focus on Measurement and Data with our first focus being on telling time to 5 minutes and to the minute.

Science: Students are learning about the engineering and design process. They are learning about what the design process is and the steps engineers follow in order to solve problems.

Note From Ms. George

Hello Tiger Parents!! Progress reports will be due soon so please look out for communication from me regarding missing assignments. Please note important dates that will affect school days in the upcoming weeks. Thanks for all that you do to support us and your child's education.
