Greetings Parents & Scholars:

Halfway through..... this week marks the midpoint of the 3rd nine weeks. As we roll into February, you may have noticed that things are more rigorous and that the expectations have increased. We will be working hard on black history research and science projects for the next month and a half, as well as tackling writing & math standards, we are asking the scholars to put their seatbelts on and enjoy the ride as it is nothing that they can't handle.

Parents we are asking that you support us, especially with regard to the prescription work we will be sending home for each individual scholar. Starting this week, we are asking that all 5th graders that are struggling be brought to Saturday school. The hours are 9 a.m. to 11:45 a.m. every other Saturday. They will receive more instruction and points to assist their grade.

Thank you for entrusting their academic growth to us.

Mrs. Green & Mr. Moore

TIGER'S MISSION:

To provide the children of the Northside a structured and nurturing learning environment that is focused on rigorous academic standards, character development, self-discipline, personal and social responsibility and family involvement.

In The Classroom

AGGIE NEWS (Reading & Writing)

The academic classroom will become more challenging. There will be more work coming home and I am asking that you view this work as a prescription in the manner that you would when a doctor sends home when the child is sick. Ensure that they get it done. I am asking that my parents, please support our babies by helping me to enforce the necessary measures needed for them to grow.

Parents, please note that each scholar will be responsible for developing a project on an African American Notable. More information to come. Writing will increase and involve more peer editing. It is my hope that the excuses are limited because if someone does not do their work it will mess up their ability to complete the class assignment and impact other scholar's ability to do theirs.

Please continue to do your nightly reading and complete all of your work.

Mr. Moore

EAGLE NEWS (Math & Science)

We are working extremely well to close out this month of learning. Last week, we being in control of ourselves and respecting our classmates. We discussed how to come in class prepared with completed homework, planner and pencils prepared for class. Each week, students can earn streak/group points for being prepared.

The standards that we will be covering this week are Multiplying Whole Numbers and Fractions in Math and Separating Mixtures and Forces and Motion in Science. The online platforms such as Zearn and Ed Base Camp have on-grade level activities for your child to continue their learning at home. Please encourage him or her to login and complete activities periodically throughout the week.

Black History Month is next month. We will have some in class activities for students to complete as assignments instead of at home activities. The Science Fair Project was given to us and will be the focus of our at home projects for the month of February.

Thank you for your continued support and partnership in your child's education.

Streak Family News

Give it up for The ORANGE Team. This team showed up and showed out last week. We will resume our weekly prizes this week.

The overall winners will receive something major. We are coordinating with administration to make that happen as the weekly winners have been out of my personal pocket. Administration has committed to making it happen.
