Greetings Parents & Scholars:

The end of the 3rd Nine Weeks is upon us. Time waits for no one and this year seems to have flown by as it is hard to believe in ten short weeks our scholars will be middle school pre-teens. With this being our last week of the third nine weeks, we are going to be reviewing and wrapping up to ensure that they are ready for the work that they will be given during Spring Break. Yes, they will have work during the break. Some scholars have been invited to Writing Camp with Mr. Moore and there are talks of a Math Camp that scholars may be invited to as well. The camps are based off of specific needs and data.

Please know that on top of Spring Break's arrival, followed by not leaving we will be approximately 15 days out from the first assessment of the year, which is the writing portion of FSA. Parents it is important that they write for the next month consistently so there will be plenty of work, we will not leave out Math and Reading during this time frame rest assured, but just know that we will be working hard to ensure their growth and will be leaning more heavily on you. .

Mrs. Green & Mr. Moore

Upcoming Events

Spring Break Begins

“Every great dream begins with a dreamer. Always remember, you have within you the strength, the patience, and the passion to reach for the stars to change the world.” Harriet Tubman

TIGER'S MISSION:

To provide the children of the Northside a structured and nurturing learning environment that is focused on rigorous academic standards, character development, self-discipline, personal and social responsibility and family involvement.

In The Classroom

AGGIE NEWS (Reading & Writing)

The Reading FSA is divided into five areas, one of which is writing. Writing used to have a separate score, but is now a part of the overall reading score. We will be concentrating heavily on the development involved in the writing over the course of the next four weeks. Scholars will come home with assignments that may take some of them awhile. I am asking that you have them work on them and should there be any questions, please reach out to me via phone. I will be available.

In class we will work on some reading standards, but writing will be our main focus during that span as well. Parents I am asking that you remind them of your expectations regarding behavior and focus.

Mr. Moore

EAGLE NEWS (Math & Science)

It's week nine of the second nine weeks! Last week, we worked extremely hard on learning how to be independent scholars with completing our classwork assignments. We discussed how to come in class prepared with homework, planner and pencils prepared for class. Each week, students can earn streak/group points for being prepared.

The standards that we will be covering this week are Multiplying with Fractions for Math and Unbalanced and Balanced Forces (Force and Motion). The online platforms such as Zearn and Ed Base Camp have on-grade level activities for your child to continue their learning at home. Please encourage him or her to login and complete activities periodically throughout the week.

The Science Fair was amazing! Thank you parents for all of your hard work to help your scholar shine!

Thank you for your continued support and partnership in your child's education.

Streak Family News

Greetings everyone! The last two weeks we have not reported anything regarding the streak families, because we went to visit a school that has streaks called casas. This school has full implementation and we are in the process of revising the streaks to be able to roll it out to the whole school.

We will keep you posted and the revisions at least for this year will be rolled out for 5th grade Part of the revisions we speak of is the point system. Our point system is vast and will be streamlined to make it more manageable.
