## **A 5<sup>th</sup> Grade Note**

*Greetings Parents:*

*Wow... can you believe it? We are currently about to begin week four of the second nine weeks. Things are moving much more smoothly as our scholars have settled in and are beginning to understand the expectations set before them academically. Parents, the rigor has definitely increased and we are moving along with it in whole group and small group settings.*

*Beginning officially this week tutoring will begin for reading. Official invites have gone home. If your scholar did not receive one, feel free to reach out and contact Mr. Moore. As many of you know Saturday School is also underway and this upcoming Saturday will be the second. Those who received an invitation are expected to come. It's all about moving to the next level. One year's growth is what we see for every scholar.*

*Last week, as you know, Ms George sent home i-Ready usage reports and it is our hope that you were able to read over them. The expectations were outlined in a letter she attached. Reading is also expecting them to work on i-Ready at home at least nine minutes daily. Progress reports will go home this week. These are not the official school ones, but rather ones we end to keep you abreast so that we are all on the same page means pushing them to complete the required home learning and asking them to go beyond. The data dictates it.*

*As always, we would like to thank you for entrusting the academic growth of your precious gifts to us. Feel free to reach out to us with any questions that you may have.*

## Math/Science

Hello Parents and Scholars!

I hope that you have enjoyed your weekend!

We are continuing to explore *Place Value and Number Relationships*. For the past two weeks we have been working on place value patterns, representing decimals as fractions, and connection those ideas together.

This week we are working on *composing and decomposing* decimals and how place value can help us do that.

In Science we will be learning about Mixtures and Solutions as well as the Water Cycle.

### News and Notes:

- Wednesday November 9<sup>th</sup> is an Early Release Day, dismissal will happen at 1:30.
- Friday November 11<sup>th</sup> is Veteran's Day. There is no school.
- Monday and Tuesday November 14<sup>th</sup> and 15<sup>th</sup> Ms. George will be out of the building.
- Thursday November 17<sup>th</sup> 5<sup>th</sup> Grade has a field trip to the Cummer Art Museum.

### Home Learning :

A packet was sent home last week and is due back this Tuesday.

A new packet will be sent out on Tuesday.

### Resource:

P.E. is on Friday, don't forget to wear your uniforms.

"It's easier to build strong children than it is to repair broken men." – Frederick Douglas

## ELA/Writing/Social Studies

Hello Parents & Scholars:

This week we will continue working on Characterization/Inferring/Figurative Language using several text on the same topics. The disposable text they will bring home is called "Developing Characters' Relationships." So far, they seem to like it.

Last week, I called an emergency parent meeting and it was productive. In summary everyone was showed a data picture of what 5<sup>th</sup> Grade looks like and where we need to go. We talked about how we will get there and how it means more work for the scholar the teacher and even the parents as we will not lose any of our scholars in the mix of the education race. We are dedicated to pushing them. Tutoting will take place and even some of you are gonna help volunteer in the classroom.
