

AGGIE PRIDE | 5th Grade Newsletter 2022-2023

SEPTEMBER 19, 2022

A 5th Grade Note

Greetings Parents:

There are some who believe the number six represents harmony and stability, but for 5th Grade it represents the week that we are in. Can you believe that we are six weeks into this school year? It won't be long now. Just kidding, as we have a ways to go, but time is still going by fast.

Speaking of fast, our scholars have completed the first of the three part assessment given by the state of Florida. They have done both Math & Reading. The results should be coming forth and we will get them to you as soon as they arrive. This is a calibration and diagnostic to see growth during the next two.

At some point this week, maybe even today official progress reports may be going home. Please check your scholar's bags or ask for them. With progress reports going home, it is also now time to schedule parent conferences. Parent conferences are an essential part of our scholar's growth as it ensure communication between the three parties, teacher, parent and the most important individual the scholar. We would like them present. A sign up form will be coming home this week. Let's knock them ALL out before parent conference day, as it will give time to repair whatever needs repairing if that is the case.

As always, we are most appreciative of you all for entrusting your scholar to us daily to ensure the academic growth our young kings and queens!!!

Ms. Gerorge & Mr. Moore

Math/Science

Hello Parents and Scholars!

Due to our initial FAST assessment this past week, class schedules were adjusted to accommodate testing schedules for scholars. This week sees continuing exploration of our volume unit. We will be relating finding volume to equations and formulas.

In Science we are continuing to explore the Nature of Science. We are learning about investigations and experiments and the difference between the two. This week is our Science lab week where we visit the Johnson YMCA for hands on activities.

Thank you to all parents who signed and returned unofficial progress report forms. Official progress reports should be coming home this week.

News and Notes:

1. Official progress reports will be sent home with students this week. Please be on the look out.
2. **Tuesday 9/20/22** – Science Lab Day at Johnson YMCA. Please have scholars to school on time so they do not miss the bus.
3. Homework will be sent home on Tuesday and is due back next Tuesday. It now includes science and practice on our new unit in math. Please remind scholars to write their names on their work.
4. PE is on Friday, don't forget to wear PE uniforms.
5. If you are interested in volunteering for field trips please reach out to Ms. Didier for assistance with the volunteer process. It is time consuming but necessary for Tiger procedures.

ELA/Writing/Social Studies

Hello Parents & Scholars:

As stated above, assessments were given last week and grades are locked for the progress reports. Some progress reports may not have the desired grade, but I assure you with your help the grades can become what we all desire. Please feel free to reach out to me with any questions or concerns, just remember we will have four weeks to turn any less than desirable grades around.

As per our last newsletter, I have unfortunately been out of the building since last Thursday and it is my prayer that I will be back on Wednesday of this week. I am asking those of you that don't mind to lift your brother up in prayer. I will be back ready to give it my all. In the meantime, rigorous work was left and I am believing that it was completed without hiccups as I know you have enforced what needed to be done in my absence.

I am also asking you to enforce anything that comes home as I will be writing prescriptions for them over the next few weeks to ensure the academic growth beat is not missed.

Thank you, 2022-2023 looks promising and I promise you that I am committed to building strong children and will do everything in my power grow by at least one academic year no matter where we are.

"It's easier to build strong children than it is to repair broken men." – Frederick Douglas
