5th Grade Lego Announcement

LEGO!!! We are half way through the second nine weeks of the school year, which means that progress reports are on their way, as well as scholarship notices. Tutoring is in full effect so please check with Mr. Moore if you feel tutoring needed and you have not been contacted.

As we sit here, please remember to keep several of our scholars families uplifted in prayer due to events that have occurred over the last week.

Over the next few weeks, we will be ramping up the rigor and increasing the expectations of all. Please feel free to reach out with any questions or concerns.

Important Dates

- November 15, 2021**
Progress Reports Due
- November 16, 2021**
Progress Reports Go Home
- November 17, 2021**
Early Release Day

AGGIE NEWS (Reading & Writing)

Greetings! We are entering our 6th week of the second nine weeks and it is going to be a short one. With that being said, we are working heavily on completing main idea to end the bulk of the lesson on this standard for now. We will be transitioning into craft and structure and using it over the course of the next month.

As always, data is being used to guide our instruction, and groups will be changing this week to help our scholars grow. Speaking of growth, we have taken a couple of standards mastery assessments and I am very pleased with the overall scores the scholars have produced. It is encouraging because it suggests they are buying into the prescribed needs as a scholar.

Under Craft & Structure our first focus point will be dealing with the structure of text as well as its features.

“Education is the most powerful weapon which you can use to change the world.” -Nelson Mandela

Streaks

The winning team this week was blue, This will be twice in consecutive weeks. It was extremely close and the red team is still winning overall. Please encourage our scholars to do the right thing and if there is anything that they do above and beyond, please let me know so we can add those points as well.

Each week the group that wins, receives something nice. Asking for your assistance in this as well if possible as it has been coming out of my pocket.

EAGLES (Math & Science)

It's week six of the second nine weeks! Last week, we worked extremely hard on completing tasks and maintaining a positive attitude in our learning environment. We discussed i-Ready data and how to take notes during the lessons to help with their quiz score. We celebrated being this week's i-Ready winner. We beat the i-Ready Reading data by 1% point. Our 5th grade team is working on achieving our i-Ready and assessment goals. Please congratulate and encourage your child to stay on top of completing their work in class and meeting their goals. 5th Grade Rocks!

The standards that we will be covering this week are Multiplying and Dividing with Decimals for Math and Separating Mixtures and Forming Solutions. Please encourage your child to continue practicing these skills at home with Ed Base Camp and Zearn.

Thank you to all of those who sent in pictures of your family's veterans! The look on your child's face of how proud he or she was to share it was unforgettable!

Big shout out to those parents who have already signed up for Class Dojo! We are looking for the streak team with all of their parent's to sign up first can earn recognition and streak points!

Thank you for all that you do to support our 5th grade team!
