

## The Streaks | 5<sup>th</sup> Grade Newsletter 2021 – 2022

OCTOBER 18, 2021

# Message From The 5<sup>th</sup> Grade LEGO Team

Greetings Parents & Scholars:

The first nine weeks is officially over and we are currently moving into the second nine weeks of the year. Thank you to each and every one of you that was able to meet with us to discuss the progress of our scholars. If you were unable to meet with us, there is still time to find out where they are and what needs to be done to show a minimum of one year's growth in all subject areas.

As you know, keeping you in the loop is a top priority of the 5<sup>th</sup> team and it is with this that we have a bittersweet announcement to make. This week will be the last week of Ms. Angelica. It is with sadness on all ends that we part, as Ms. Angelica is truly saddened, as is Mr. Moore, the kids and Tiger overall. Friday, will be her last day as a teacher here, but not as a member of our team as she will be checking in and assisting all the way through the end of the year. Along with this announcement, we'd like to welcome a new member of our team, which is Mrs. Green. The introduction of Mrs. Green can be found further in the newsletter.

The standards are forever changing from week to week and as the rigor increases we are asking you to please check the planners to see homework or even reach out to us to see what the prescription for growth is anytime you need to. The new name for homework is Prescription for Growth!

Again, thank you for entrusting us to help make a difference in the lives your children!

Mr. Moore, Ms. Angelica & Mrs. Green

## Math/Science

This is Ms. Angelica's last week at Tiger Academy. I wanted to take some time out to say thank you for the opportunity to teach your children. This class is truly special and I believe that each scholar is destined for their own individual greatness.

I wholeheartedly believe that it takes a village to raise a child and I am honored to be able to be a part of the village you created for your child.

That being said, I will still be around. I plan to visit, check in, and possibly tutor after school. I know each scholar is unique and I would like to still be a part of your village.

The scholars are in good hands with Ms. Green. She introduced herself below, but she has been in class with us the last few weeks to learn our routines and our class structure. Your students are in good hands and Ms. Green is dedicated to supporting your scholars as well.

Thank you for all your support during this school year and I look forward to checking in and seeing the progress that each scholar makes throughout the year.

## ELA/Writing/Social Studies

Welcome to the second nine weeks everyone. The first week of the second nine weeks is complete and the scholars are finding that the rigor has increased as has the tempo. We have a lot to cover and I am asking that you all get ready as the learning will be intense.

As a reminder, the Prescription for Growth (homework) is typically given on Mondays & Wednesdays in reading, but occasionally the scholar may come home with work to do on different days based on the individual needs assessed for the particular areas of reading. It is a necessary evil so to speak for the overall good, which is growth. Please be reminded that the expectation of reading for 30 to 45 minutes nightly is not considered a part of The Prescription for Growth. It is separate and they have mandatory reading Monday thru Thursday and they may pick one day between Friday and Sunday, which will total their five nights.

Thank you to all parents that have sent in supplies and incentives. I am still encouraging everyone to continue to do the same.

"Education is for improving the lives of others and for leaving your community and world better than you found it." –Mary Wright Edelman

With the first nine weeks being officially over, we have an overall winner. That's right we have an overall winner and it was extremely close. Please give it up for The Green Squad. These scholars actually were near the end for over half of the first nine weeks and then turned it on in the midnight hour. We are extremely proud of each and every member of each of The Streaks as it was a battle to the end to accomplish things academically and throughout the school with behavior and above and beyond.

## Message From Ms. Green

Greetings 5th Grade Tiger Parents!

I am your child's new 5th grade Math and Science teacher. I am so excited to be back again as a teacher with Tiger Academy. I would like to share a little about myself with you. I am a native of Jacksonville, born and raised in Duval. I went to school in Atlanta, Georgia at Emory University. I have worked in the field of education for over twenty years. This is my third year being a fifth grade math and science teacher. I have enjoyed working with children and being a positive light for our youth since I was a teenager. A fun fact about me is that I have six children, 4 graduates of Duval County, 1 senior and a seven year old special needs daughter. Please feel free to contact me anytime. My email is : [kgreen2@fcymca.org](mailto:kgreen2@fcymca.org). I enjoy when I hear from my parents! Look forward to working with you to help your child be successful this school year!
